Experience

Java Developer Trainee | JSpiders

May 2024 - Oct 2024

As a Java Developer Trainee at JSPider, I gained hands-on experience in developing dynamic web applications using **Java, Servlets, JSP, and JDBC**. I enhanced my front-end development skills with **HTML, CSS, Bootstrap, and React JS**, while also building and maintaining databases using **MySQL**. My training involved collaborating with peers to implement key functionalities in full-stack web projects, allowing me to apply theoretical knowledge in practical scenarios. I am committed to continuously improving my coding skills and staying updated with industry best practices through intensive training modules and project-based learning.

Web Developer Intern | InternPE

Oct 2024 - Nov 2024

As a Web Development Intern at InternPE, I worked on building responsive web applications using **HTML, CSS, JavaScript, and React**. I collaborated with the development team to implement front-end components, optimize performance, and ensure cross-browser compatibility. I gained hands-on experience with version control using **Git** and contributed to debugging and testing processes to ensure high-quality code. This internship significantly improved my web development skills and prepared me for larger-scale projects in future roles.

Projects

Grilli Restaurant Responsive Website ([LINK](#))

Technologies Used: **HTML, CSS, JavaScript**

- Designed a responsive and modern restaurant website with a user-friendly interface.
- Implemented interactive elements and dynamic galleries using **Swiper.js**.
- Integrated **EmailJS** API for efficient contact form handling and email management.

CodePen Clone ([LINK](#))

Technologies Used: **React JS, JavaScript, HTML, CSS**

- This project is a clone of the CodePen interface, designed to replicate its layout and features
- It utilizes **HTML, CSS, and JavaScript** to build a responsive and interactive front-end
- The project focuses on modern design practices and includes basic code editing functionalities similar to CodePen.

YT Bookmarker Chrome Extension ([LINK](#))

Technologies Used: **React JS, Chrome storage, Bootstrap**

- Developed a Chrome extension using **React**, enabling users to bookmark YouTube videos with specific timestamps for seamless viewing experience.
- Implemented features for adding, modifying, and deleting bookmarks, enhancing user interaction and content organization.
- Utilized **JavaScript** and **Chrome APIs** to create a user-friendly interface, improving video accessibility and efficiency for YouTube users.

Skills

- Programming Languages: **Java, JavaScript**
- Web Development: **HTML, CSS**
- Frameworks: **ReactJS, Tailwind, Bootstrap**
- Database Management Systems: **MySQL**
- Tools: **Git, GitHub, VS Code, IntelliJ IDEA**

Education

Vignan Institute Of Technology And Management, Berhampur
B.Tech in Computer Science

(2020 - 2024)
CGPA: 7.73

Certifications

- Meta Front-End Course Completed via Coursera ([LINK](#))
- REACT JS via Coursera ([LINK](#))
