SKILLS

- Programming Languages: **Java, JavaScript**
- Web Development: **HTML, CSS**
- Frameworks: **ReactJS, Bootstrap**
- Database Management Systems: **MySQL**
- Tools: **Git, GitHub, VS Code, IntelliJ IDEA**

EDUCATION

Bachelor of Science in Computer Science

VITAM, Berhampur, Odisha (2020 - 2024)

Higher Secondary Education

Vignan Junior College, Berhampur

LANGUAGES

- English - Proficient
- Odia- Native
- Telugu- Native

PROJECTS

Grilli Restaurant ([LINK](#))

Technologies Used: HTML, CSS, JavaScript

- Designed a responsive and modern restaurant website with a user-friendly interface.
- Implemented interactive elements and dynamic galleries using JavaScript.
- Integrated EmailJS API for efficient contact form handling and email management.

Project: Little Lemon ([LINK](#))

Technologies Used: HTML, CSS

- Utilized CSS Grid and Flexbox for creating flexible and efficient layouts.
- Ensured responsiveness across various devices and screen sizes.
- Employed semantic HTML5 elements for enhanced accessibility and SEO.

CodePen Clone ([LINK](#))

Technologies Used: React JS, JavaScript, HTML, CSS

- This project is a clone of the CodePen interface, designed to replicate its layout and features.
- It utilizes HTML, CSS, and JavaScript to build a responsive and interactive front-end.
- The project focuses on modern design practices and includes basic code editing functionalities similar to CodePen.

CERTIFICATIONS

- Meta Front-End Course (2023) Completed via Coursera. ([LINK](#))
- REACT JS via Coursera. ([LINK](#))
- Bootstrap W3Schools. ([LINK](#))
