Education

Vignan Institute Of Technology And Management, Berhampur
B.Tech in Computer Science

(2020 - 2024)
CGPA: 7.73

Experience

Web Developer Intern | InternPE

Oct 2024 - Nov 2024

- Completed a four-week virtual internship focused on full-stack web development.
- Developed four individual projects, each completed within a week, covering different aspects of frontend and backend technologies.
- Gained hands-on experience with React, JavaScript, HTML, CSS, and Git while following structured project guidelines.
- Implemented best coding practices, optimized performance, and ensured responsive design in all projects.
- Successfully earned a certification of completion for meeting the required project milestones.

Projects

Chat App ([LINK](#))

Technologies Used: React.js, Firebase Authentication, Firebase Storage, JavaScript, Toastify-JS

- Built a real-time messaging app with Firebase Firestore for instant updates.
- Integrated Firebase Authentication for secure user login and password management.
- Users can send messages, store profile pictures, and recover passwords seamlessly.
- Firebase Storage is used to store user profile pictures and chat media.
- Designed with a responsive UI using HTML, CSS, and JavaScript.

Bookstore Management System ([LINK](#))

Technologies Used: Java, Spring Boot, Hibernate, Thymeleaf, MySQL, HTML, CSS, Bootstrap

- Developed a full-stack web application for managing an online bookstore with role-based user authentication.
- Implemented CRUD operations for books, users, and orders using RESTful APIs.
- Designed a responsive frontend using Thymeleaf templates and Bootstrap for a seamless user experience.
- Managed the database with schema and sample data using MySQL and optimized ORM queries with Hibernate.

YT Bookmarker Chrome Extension ([LINK](#))

Technologies Used: : React JS, Chrome storage, Bootstrap

- Developed a Chrome extension using React, enabling users to bookmark YouTube videos with specific timestamps for seamless viewing experience.
- Implemented features for adding, modifying, and deleting bookmarks, enhancing user interaction and content organization.
- Utilized JavaScript and Chrome APIs to create a user-friendly interface, improving video accessibility and efficiency for YouTube users.

Skills

- Programming Languages: Java, JavaScript
- Frontend: React, HTML, CSS, Bootstrap
- Backend: SpringBoot, Hibernate(ORM)
- Database: MySQL
- Tools: Git, GitHub, VS Code, IntelliJ IDEA

Certifications

- Spring Boot 3, Spring 6 & Hibernate via Udemy
- REACT JS via Coursera
